Dinner will be provided from 5:30 - 6:00pm

Registration and Details:

www.bcchr.ca/miniscienight

Hear from award-winning researchers and health professionals on new advancements in their fields, explore the diverse careers available in science and medicine, and connect with other members of your community!

Admission is free but space is limited. Everyone in the community is welcome to register, including students, teachers, parents, seniors and health professionals.

BC Children's Hospital Research Institute is coming to BC's Southern Interior! In addition to hearing from our presenters, attendees can also network with other research and clinical faculty.
