

BCCHR CORE TECHNOLOGIES AND SERVICES

USER EXPECTATIONS

All BCCHR Core Technologies and Services users must:

- Have received approval from their Principal Investigator before requesting training on equipment in core facilities.
- Be in good health when coming to use the facility (i.e., no signs of cold, cough, flu-like symptoms, and should be well rested).
- Have completed the lab safety training from UBC before booking any resources in the core facility.
- Follow their lab safety procedures while working in core facilities, including wearing appropriate personnel protective equipment.
- Remove data files (where applicable) from shared computers in the core facilities as soon as the use of the computer for that day is completed.
- Always book the equipment on Calpendo before using the facility and cancel reservations if no longer required to allow others to use it.
- Clean the equipment and space after use.
- Follow their lab work alone policy when working before or after working hours.*

**Standard working hours of BCCHR Core Technologies and Services is Mon-Fri, 8:30 am-5:00 pm, except Stat holidays.*
