## Please Note

- First-time users seeking training must complete the full training process. Only trained users who have submitted their onboarding form and training record for an equipment may use the equipment independently.
- The BCCHR Imaging Core maintains policies to discourage overbooking and maintain equitable access to equipment for all users.
  - Please book the time you anticipate needing. Charges are based on the greater of booked time or actual usage time.
  - Bookings cancelled within 24 h of the scheduled start time (“late cancellations”), or bookings for

which no CAR sign-in is detected during the reserved time window (“no shows”), will be billed 50% of the booked time. *This policy does not apply to “Self Serve” of HCS Image Acquisition or “Self Serve Wide Field Live” Imaging of SP5 as live cells experiments may be unpredictable.*

- Users with repeated late cancellations or no shows may receive a warning. Continued occurrences may be reported to the PI.
- Users are responsible for ensuring their bookings and CAR sign-in/sign-out records are accurate. If a login is detected without a corresponding logout for more than 6 hours and no associated booking exists, a 6-hour charge will automatically be applied because the actual duration of equipment use cannot be verified.
