

BCCH BioBank Services

In addition to storing biological samples and clinical information, the BioBank offers many other services as well. The prices below are based on specific volumes and protocols. Deviations from our Standard Operating Procedures may reflect a change in price.

Consenting

Our well-trained staff are able to consent for your specific study \$55/hour

Processing

Staff are able to process according to your protocol. The procedures below are routinely performed, but we can customize our procedures to your requirements.

- DNA Extraction \$45/cartridge
- RNA Extraction \$45/cartridge
- Bone Marrow
 - ◊ Plasma \$45/patient collection
 - ◊ PBMCs \$90/patient collection
 - ◊ Plasma & PBMCs \$120/patient collection
- Blood
 - ◊ Whole blood aliquots \$35/patient collection
 - ◊ Whole blood aliquots (leftover blood) \$20/patient collection
 - ◊ Serum \$45/patient collection
 - ◊ Plasma \$45/patient collection
 - ◊ Serum & Plasma \$75/patient collection
 - ◊ PBMCs \$90/patient collection
 - ◊ Buffy Coat without RBC lysis \$25/patient collection
 - ◊ Buffy Coat with RBC lysis \$55/patient collection
- Urine - centrifuge & aliquot \$22/patient collection
- CSF/Pleural Fluid - centrifuge & aliquot \$22/patient collection
- CBC Runs on Pochi \$5/run
- Placenta \$55/patient collection
- Cord Blood
 - ◊ Plasma \$45/patient collection
 - ◊ PBMCs \$110/patient collection

Clinical Data Entry

Our staff are familiar with both RedCap and the BioBank's clinical database, ATiM. \$55/hour

Storage

We're able to store samples in our secure facility that is monitored 24/7

- Liquid Nitrogen \$120/box/yr (100 aliquots)
- -80 degree Celsius freezers \$30/box/yr (81 aliquots)

Retrieval Services

- Sample Retrieval
- Data Retrieval
