Purpose: Active screening for COVID-19 is now in place. Early identification of cases is vital to prevention of respiratory infections in health care settings. This form is used to screen ambulatory patients and their parent/caregiver/support person (Accompanying Person) for signs of infection and self-isolation.

Directions For Use:
1. Research group to complete screening tool during booking and/or reminder calls for each Participant.
2. Research group or BCCH MRI Research Facility staff can complete the screening tool on arrival to the MRI Facility.
3. Indicate findings for both the Participant and Accompanying Persons using the following: Y (yes), N (no) or U (unable to assess) for each question.
4. If N (no) to all of the questions, proceed with usual check in procedure following Routine Practices for Infection.
5. If Y (yes) or U (unable to assess) to any of the questions for either the Participant or Accompanying Person (AP) during a screening,
   - If Yes to any symptoms for Participant please note and do not book Participant.
   - If Yes to symptoms for AP they may not enter MRI Facility.
